

## Shopping

3 €

Bryan buys clothes in London. Calculate the missing prices.

The shoes are six times more expensive than the socks.

The tee-shirt is twice less expensive than the shoes.

The hat is three times less expensive than the shoes.

The skirt price is the same as the price of the tee-shirt and the hat together.

### Corrigé:

Les chaussures coûtent 18 €. / *The shoes cost 18 €.*

Le tee-shirt coûte 9€. / *The t-shirt costs 9 €.*

Le chapeau coûte 6 €. / *The hat costs 6 €.*

La jupe coûte 15 €. / *The skirt costs 15 €.*

### *Procédure possible:*

Chaussures ( shoes ) = 6 x chaussettes = 6 x 3 = 18 €

Tee-shirt = chaussures : 2 = 18 : 2 = 9 €

Chapeau ( hat ) = chaussures : 3 = 18 : 3 = 6 €

Jupe = tee-shirt + chapeau = 9 + 6 = 15 €
